

## Treat Sciatica Now.

Hi What's up?

This is Nigel Williamson here and I wanted to share my sciatica back pain experience with you all. But first, let me tell you how my sciatic pain came about. At around age 35 I started getting these sharp pains in my lower back and hip region. I thought, 'I'm getting old - this will go away soon though like all pain eventually goes away'. Months later, I was coming to terms with the idea that I may have to deal with this pain for the rest of my life.

Until I stumbled upon this one book... which gave me a new perspective on my sciatica pain.
